/summary

Web developer with background in retail management and customer service. Skilled in HTML, CSS, and JavaScript. Likes intellectually challenging tasks and crafting beneficial projects with a solution-oriented and user-centric approach. Can leverage analytical skills, innovative and efficient problem solving, systemization and management of complex systems and processes.

/work experience

(Operations Manager)

WALMART   October 2016-Present

- Worked directly with teams to build a customer-focused mindset.

- Wrote training material to be used in Walmart Academy training programs for future and current salaried managers.

- Analyzed marketing information and translated it into strategic plans to increase brand loyalty and customer engagement.

- Created mentorship programs for all of my direct reports, ensuring that they developed their ancillary associates, and developed themselves in the process.

- Increased top line sales from $36 to $55 million, becoming the fastest growing store in central Iowa.

- Initiated, fostered, and maintained relationships with vendors and supply chain partners.
